

YOU

came to Germany for serious reasons. I wish you, that these reasons will be recognized according to the dignity of every human being and the laws of our country. This will take time. That might be depressing, but hopefully also gives you the opportunity to learn German and to know our culture.

MY NAME

is Aurel Everling. I'm pastor of the Evangelical Church in charge of work for refugees in the Church District at Lahn and Dill. I respect any Christian denomination. And if you are muslim or belong to any other religion but have no reservations about me as Christian pastor, feel invited to contact me for what I offer to refugees in our region:

MEET & LISTEN

to you, share memories and pictures from where you come, share your hopes for your future in Germany and your actual desires. And let's listen to God, who gives us encouragement and orientation through words of the Bible, in times of silence and prayer.

SING & PRAY

in your language. If you play a musical instrument I can be helpful to find one you may use to accompany us. Let's sing and pray to God, thank him for our lives and tell him our needs and think of the country and the people you left behind. We can meet in one of the local churches or any other place.
